**For Sale - \$685,000**

Showing as a 2-bedroom, this rare single-level, turn-key end unit could be yours. Perfectly located in the heart of La Costa-just minutes from the beach-this home overlooks the 3rd hole of the Omni La Costa Golf Course with gorgeous, uninterrupted views. Every inch of this open-concept retreat has been thoughtfully upgraded and is truly move-in ready: luxury vinyl plank flooring, Carrera marble countertops in the kitchen, Carrera marble floors in both bathrooms, and added storage throughout set the tone for elevated living. The living room is anchored by a wood-burning fireplace. With western exposure, the home is filled with immense natural light, while three sets of sliding doors open to an expansive, private patio, creating the perfect backdrop for quiet mornings or sunset toasts. The stunning kitchen with stainless steel appliances and a farmhouse sink is designed for both barefoot baking and intimate dinner parties. The primary bedroom features two custom built-in closets, while the en-suite includes an oversized dressing area, traditional closet, a secondary closet, and in-unit laundry. In addition to the office nook a 2nd room added as a bedroom could be your next big idea - library, studio, meditation space you decide. Upgraded doors, trim, hardware, lighting fixtures, ceiling fan, custom mantle and HVAC to boot.
